Project Description

According to the bank's website, the project aims to "strengthen the integration of gender perspectives into tax policy formulation. Specifically, the Directorate General of Economic and Fiscal Strategy (DGEFS) seeks ADB's technical assistance (TA) to conduct diagnostic analyses of gender biases within Indonesia's tax system, develop practical tools and analytical frameworks such as gender impact assessments and behavioral models and build institutional capacity to systematically apply a gender lens in policymaking. This support is intended to enable DGEFS to design more inclusive, evidence-based tax policies that better reflect the differentiated economic and behavioral realities of women and men".
