The TA will support public sector reform in Pakistan through diagnostics, project preparation, and capacity building. It will support (i) targeted diagnostic assessments and policy advice delivered to strengthen public financial management (PFM), governance, the investment climate, and trade and logistics; (ii) enhanced due diligence and operational readiness for ensuing ADB-financed projects through technical, financial, safeguards, and gender analyses; and (iii) applied capacity building delivered to strengthen institutional systems, coordination, and implementation capability at the federal and provincial levels through training, knowledge products, and stakeholder engagement.
