While assisting the poor and vulnerable people and reducing the economy's reliance on fossil fuels, the CSF could be expected, among other things, to also support policies and measures that accelerate energy transition by reducing reliance on fossil fuels and expanding access to renewables (e.g., solar PV including solar pumps) and electric vehicles through time-bound tax exemptions.

Investment Description

- Asian Development Bank (ADB)

According to the ADB, the Japan International Cooperation Agency will provide a loan of US\$ 188 million in support of the project.
