Project Description

According to bank's website, this technical assistance (TA) aims to support developing member countries (DMCs) to strengthen AI-ready infrastructure, accelerate adoption of high-impact AI solutions, and build institutional capabilities needed for responsible, scalable, and sustainable AI-enabled development. The TA will support DMCs and ADB operations through an integrated approach spanning three pillars: (i) AI-ready digital infrastructure and data ecosystem diagnostics and investment planning; (ii) design and piloting of applied AI solutions embedded within ADB-supported digital platforms and sector operations; and (iii) institutional capacity building and regional knowledge exchange to strengthen implementation readiness and ecosystem development. Collectively, these activities are intended to facilitate the development of a pipeline of AI-enabled sovereign and nonsovereign investments across sectors by translating identified opportunities and validated use cases into investment-ready concepts and projects.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
