| Investment Amount (USD) | \$ 0.64 million                                                                                |

### Project Description

According to the Bank's website, the proposed operation concerns technical assistance for the preparation of the Support Project for the Strengthening of Health Infrastructure and the Pharmaceutical Industry in the Republic of Equatorial Guinea. The future PARIP project is aligned with the Mid-Term Review of the Country Strategy Paper (CSP) and is included in the Bank's 2027 Indicative Operational Programme for an estimated amount of 25 million UA. This technical assistance project will strengthen the capacities of senior officials of the Ministry of Health, Social Welfare and Health Infrastructure (MINSABSIS) to better prepare and implement PARIP. The project will also support the Government in systematically prioritizing its interventions based on evidence, thereby reinforcing its investment case and enhancing its ability to mobilize additional resources. The studies to be carried out will help identify key challenges and opportunities and, based on these, determine the most appropriate development options in the health and pharmaceutical sectors. This will contribute to strengthening sector governance at a time when the economic situation of Equatorial Guinea places increased constraints on public finances. This study project follows the Health System Support Project (2008, UA 15 million).

The objective of the project is to carry out the necessary studies for the formulation and rapid and effective implementation of the Bank's future support to strengthen health infrastructure and the pharmaceutical industry. In addition to technical assistance (TA) for the preparation of a future investment operation, the project will finance two feasibility studies: one focusing on health infrastructure and the other on the pharmaceutical industry in the République de Guinée équatoriale. Ultimately, the TA will provide the Government with strategic options to improve the performance of its health system and clarify the potential role of the Bank in this regard.

## ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.afdb.org/en/disclosure-and-access-to-information/request-for-documents>. Under the AfDBs Disclosure and Access to Information policy, if you feel the Bank has omitted to publish information or your request for information is unreasonably denied, you can file an appeal at <https://www.afdb.org/en/disclosure-and-access-to-information/appeals-process>.

## ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing [crmuinfo@afdb.org](mailto:crmuinfo@afdb.org), [b.kargougou@afdb.org](mailto:b.kargougou@afdb.org), [b.fall@afdb.org](mailto:b.fall@afdb.org), and/or [s.toure@afdb.org](mailto:s.toure@afdb.org). You can learn more about the IRM and how to file a complaint at: <https://www.afdb.org/en/independent-review-mechanism/>
