Project Description

According to the Bank's website, the programme's overall goal is to enhance economic governance and mitigate the social crisis by supporting public finance management reforms and helping to preserve human capital. More specifically, the programme seeks to consolidate the budget by increasing tax revenues and strengthening budget transparency and citizen control.

The program's beneficiaries remain unchanged. PACRES will benefit the country's entire population. Indeed, increased tax efficiency in favor of greater resource mobilization, coupled with greater transparency in the management of public expenditure, is likely to free up budgetary space to increase the resources allocated to social services, thereby improving the living conditions of the population, particularly women and girls.
