Countries	Ivory Coast
Financial Institutions	African Development Bank (AFDB)
Status	Active
Bank Risk Rating	U
Voting Date	2019-11-08
Borrower	Government Of Côte D'Ivoire
Sectors	Law and Government
Investment Amount (USD)	\$ 6.77 million

## Project Description

The proposed intervention concerns a UA 9.40 million loan from African Development Fund (ADF) resources to the Republic of Cote d'Ivoire to finance the Support Project for the Implementation of the Inclusive Service Delivery Development Programme (PAME/PDSI). PAME/PDSI provides a response to the country's economic and social challenges by building the administration's capacity for a successful implementation of the National Development Plan, which will allow for the structural transformation of the Ivorian economy, which can drive the country towards emergence. This is an institutional support project that will be implemented over the 2019-2021 period and it is intended to strengthen the administration's capacity to manage, as well as monitor and evaluate the National Development Plan (PND), which is the reference document for conducting development policy in Cote d'Ivoire with a view to stimulating strong and inclusive economic growth. The project has two mainly components, which are closely linked. The first component aims at strengthening the institutional, technical, informational and logistic capacity of the PND Technical Secretariat (ST-PND) in order to ensure a better PND implementation. It also aims at operationalising the Bank's Project and Programme Portfolio Coordination and Monitoring Unit (CCSPPP-ADB) recently created at the Ministry of Planning and Development (MPD) to improve bank portfolio performance. The second component aims at supporting the National Institute of Statistics (INS) in carrying out surveys and general population and housing censuses (GPHC 2019), data processing and analysis in order to have better knowledge of the demographic and socio-economic characteristics of the population with special focus on gender inequality. It also aims at building the capacity of decentralised structures responsible for the production of regional statistics and planning and statistics departments of the ministries for the production of sector statistical data. The project implementation will help to improve the performance of the Bank's portfolio of projects and programmes in Cote d'Ivoire. All this contributes to the strengthening of good governance and social well-being. Improving the performance of these projects and programmes will enable the Government to achieve the objectives defined in the PND which are fully in line with the Bank's "High 5s".

The project's overall objective is to promote strong and inclusive economic growth by building the country's capacity to monitor and evaluate the national development strategy for inclusive service delivery.

The direct project beneficiaries are the PND Technical Secretariat, the INS, the decentralised State structures at the regional level and the coordination and monitoring unit responsible for the Bank's project and programme portfolio. By building the capacity of the latter, the project will ensure better monitoring and evaluation of the PND at the central and regional levels. Ultimately, the project will indirectly benefit the entire Ivorian population as the implementation of development projects and programmes will be more efficient. In addition, the consideration of 2019 census data will facilitate planning which aims at reducing pockets of vulnerability and makes economic growth more inclusive.

## ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing [crmuinfo@afdb.org](mailto:crmuinfo@afdb.org), [b.kargougou@afdb.org](mailto:b.kargougou@afdb.org), [b.fall@afdb.org](mailto:b.fall@afdb.org), and/or [s.toure@afdb.org](mailto:s.toure@afdb.org). You can learn more about the IRM and how to file a complaint at <https://www.afdb.org/en/independent-review-mechanism/>.
