## Project Description

As stated by the AfDB, the programme is planned in three phases: (i) the first phase consists of exploring the Lake Assal geothermal steam field and confirming the characteristics of the geothermal resource; (ii) the second phase involves the development of the geothermal field and construction of a geothermal power plant with an installed capacity of 20 MW; and (iii) the third phase consists in extending the capacity of the geothermal power plant to 50 MW. Phase 1 - the subject of this project, financed by concessionary funds - is designed to remove the risks associated with exploration, thereby paving the way for private sector participation in phases 2 and 3.

## ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing [crmuinfo@afdb.org](mailto:crmuinfo@afdb.org), [b.kargougou@afdb.org](mailto:b.kargougou@afdb.org), [b.fall@afdb.org](mailto:b.fall@afdb.org), and/or [s.toure@afdb.org](mailto:s.toure@afdb.org). You can learn more about the IRM and how to file a complaint at <https://www.afdb.org/en/independent-review-mechanism/>.
