Project Description

The Savannah Agriculture Value Chain Development Project (SADP) aims to ensure national food and nutrition security, create employment and contribute to industrialization. The project is expected to contribute to the Government's industrialization agenda, support PFJ and RFJ, skills development and entrepreneurship for women and youth, and build resilient food systems in the savannah areas of northern and middle belts of Ghana. The proposed project will have three components namely (i) Climate-resilient Production Development, (ii) Sustainable Value Chain Development, and (iii) Project Management.

The overall goal of the Project is to ensure national food and nutrition security, create employment and contribute to industrialization. The specific objectives are to increase the climate-resilient production of maize, rice and soybean to support the poultry value chain, generate employment, increase the incomes of farmers and support household nutrition, especially the vulnerable women headed households.

ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing crmuinfo@afdb.org, b.kargougou@afdb.org, b.fall@afdb.org, and/or s.toure@afdb.org. You can learn more about the IRM and how to file a complaint at: <https://www.afdb.org/en/independent-review-mechanism/>
