Guinea – PPF Preparatory studies for hydroelectric production and
electricity access projects

Quick Facts

Countries	Guinea
Specific Location	Tinkisso River, Kankan, Dabola, Bissikirimba, Dinguiraye, Faranah
Financial Institutions	African Development Bank (AFDB)
Status	Approved
Bank Risk Rating	U
Voting Date	2023-11-23
Borrower	Government of Guinea
Sectors	Energy, Hydropower, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 4.59 million
Grant Amount (USD)	\$ 4.59 million
Project Cost (USD)	\$ 9.18 million

Project Description

As stated by the AfDB, the aim of this project is to finance the preparatory studies for the Morisakano and Grand Kinkon hydroelectric power station projects, the rehabilitation and reinforcement of the MV/LV networks of the Tinkisso system and the finalisation of the framework law for the electricity sub-sector.

This intervention has been designed to enable feasibility and institutional studies to be carried out. The Morisanako and Grand Kinkon hydroelectric schemes are also included among the priority generation projects in the revised ECOWAS master plan for the development of electricity generation and transmission capacity. The rehabilitation and reinforcement of the distribution networks of the Tinkisso system will enhance the results of the 225 kV Guinea-Mali Electricity Interconnection Project (PIEGM). The feasibility studies will ensure good quality at the entrance to these projects, which could constitute future operations.

The main deliverables are, for each hydropower plant:

- (i) a final ODA study report;
 - (ii) a final ESIA report, including an environmental and social management plan (ESMP);
 - (iii) a comprehensive resettlement plan (CRP) validated by the stakeholders;
 - (iv) a climate change vulnerability analysis;
 - (v) an assessment of the profitability of the planned investments; (vi) tender documents (DAO) for the implementation of public-private partnership (PPP) projects;
- (2) for the rehabilitation and reinforcement of the MV/LV network of the Tinkisso system (Dabola-Bissikirim-Dinguiraye and Dabola-Faranah):
- (i) a final DPA study report;
 - (ii) a final ESIA report, including an environmental and social management plan (ESMP);
 - (iii) an assessment of the profitability of the planned investments;
 - (iv) a tender dossier for the works;
- (3) as regards the institutional study to finalise the framework law:
- (i) a finalised electricity framework law that takes into account energy efficiency and renewable energies;
 - (ii) implementing regulations;
- (4) two audit reports on the accounts.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.afdb.org/en/disclosure-and-access-to-information/request-for-documents>. Under the AfDB's Disclosure and Access to Information policy, if you feel the Bank has omitted to publish information or your request for information is unreasonably denied, you can file an appeal at <https://www.afdb.org/en/disclosure-and-access-to-information/appeals-process>

ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing crmuinfo@afdb.org, b.kargougou@afdb.org, b.fall@afdb.org, and/or s.toure@afdb.org. You can learn more about the IRM and how to file a complaint at: <https://www.afdb.org/en/independent-review-mechanism/>
