KENYA - National Urban Water Supply and Sanitation Program

Quick Facts

Countries	Kenya
Financial Institutions	African Development Bank (AFDB)
Status	Approved
Bank Risk Rating	A
Voting Date	2024-11-19
Borrower	Government of Kenya - Ministry of Water, Sanitation and Irrigation (MoWSI); Ministry of Finance
Sectors	Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	\$ 168.11 million

Project Description

According to the Bank's website, the objective of the National Urban Water Supply and Sanitation Program (NUWSSP) is to improve access to safe and reliable water supply and sanitation services in selected towns in 16 counties in Kenya.

The program will target 21 towns in 16 counties, with a population of around 1,409,245 people, who will benefit from improved access to water supply and 500,000 people will have improved access to sanitation services. Beneficiary towns have been selected on the basis of demand for water and sanitation in urban cities, shortcomings in last-mile connectivity under the Kenya Sustainable Urban Water Supply and Sanitation Program, and the readiness of sub-projects to be implemented.

Marginalized towns in arid and semi-arid areas of the country were also considered. The counties concerned are as follows: Kajiado, Mombasa, Marsabit, Tharaka Nithi, Embu, Meru, Muranga, Nandi, Narok, Baringo, Laikipia, Nyandarua, Homa Bay, Migori, Bomet and Uasin Gishu.

The program targets several towns in Kenya that will benefit from improved access to a safe and reliable supply of drinking water and improved sanitation services. For the successful implementation of the program, various stakeholders were consulted, including drinking water service providers, county administrations and the communities that will directly benefit from the program. Civil society organizations were also recognized as key players and consulted.
