Comoros - Project to support the digitization of the Comorian economy (PADEC)

#### **Project Description**

According to the Bank's website, the project's main objective is to improve the governance, quality, affordability and accessibility of relevant public services provided to users. More specifically, it aims to encourage the emergence of a comprehensive and coherent range of digital services capable of meeting the population's needs and ultimately bringing the country into the information society.

The main beneficiaries of PADEC comprise: Citizens, associations and private enterprises, as users of the digital services provided. Government services, given that the project will provide them with digital services to facilitate the deployment, operation and pooling of IT resources, thereby improving responsiveness, performance and innovative capacity. State employees, since they will be provided with a working environment and digital tools to improve comfort, efficiency and productivity. Young local entrepreneurs and innovators who, thanks to the project, will contribute to the emergence of an endogenous ecosystem capable of responding to local needs with local solutions.
