### Project Description

SREP projects will focus on both on-grid and off-grid expansion options for sector using renewable energies. At this stage, the Bank is in the final process to recruit consultancy firms to perform feasibility studies on potential hydropower and biomass projects. The following sites have already been identified for mini/micro hydropower plants: Gbedin Falls (St. John River Basin, Ya Creek (St. John River Basin) and River Gee (Cavalla River Basin)

The ultimate objective of the project is to increase the Liberian population's access to electricity. More specifically, the projects is to meet the electricity needs of a significant part of the rural population in eastern Liberia by using indigenous renewable energy resources. It also aims to help enhance institutional, human and technical capacities, introducing sustainable business and to create an approach that can be replicated and supported by different development partners.

#### ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing [crmuinfo@afdb.org](mailto:crmuinfo@afdb.org), [b.kargougou@afdb.org](mailto:b.kargougou@afdb.org), [b.fall@afdb.org](mailto:b.fall@afdb.org), and/or [s.toure@afdb.org](mailto:s.toure@afdb.org). You can learn more about the IRM and how to file a complaint at <https://www.afdb.org/en/independent-review-mechanism/>.
