Project Description

According to the AfDB, Liberia's Pro-Poor Agenda for Prosperity and Development 2018 to 2023 and National Financial Inclusion Strategy 2019-2023 both seek to augment inclusion through increased access to finance and improved infrastructure. As one of the WAMZ countries, Liberia also subscribes to the agenda for greater integration through modernisation of payment systems. The project's primary objective is to strengthen the payments ecosystem in Liberia for increased efficiency.

It has four main components, namely: (1) the upgrade of the Automated Cheque Processing and Automated Clearing House; (2) the upgrade of the Real Time Gross Settlement system; (3) the upgrade of the climate-resilient and energy-efficient Main Data Centre and Disaster Recovery Site; and (4) the project management.
