Project Description

According to bank documents, the proposed operation is a key element of the Bank's strategy to help Mozambique turn its energy sources into development outcomes, complementing interventions in developing the natural gas resources and expanding transmission capacity of the country. The MEFA Programme has three components that respond to key development challenges in Mozambique. The first component entails the construction and taking into operation a new National Control Centre which will be pivotal in expanding power exports. The national electricity utility, Electricidade de Mocambique (EDM) is aiming for a threefold increase, incorporating more variable renewable energy sources, such as solar and wind, and facilitating inward investments due to availability of much better quality of power supply. The second component will provide nearly 49,000 new connections in support of the Government of Mozambique's (GoM), Energy for all Plan. The third component targets operational support to the above components, supporting Mozambique's membership of the Africa Trade Insurance Agency and improving the financial health of EDM. The programme costs inclusive of taxes and duties is UA 56.8 million. The Bank proposes to extend an ADF grant of approximately UA 25.9 million, which will cover 48% of the project cost.

The Programme Objectives are: (i) to increase stability of the Mozambican power system, (ii) enable a large expansion of power sales to Southern Africa Power Pool (SAPP), (iii) expand access to electricity and (iv) assist in improving EDM's financial sustainability. The programme will be co-financed with the Governments of Germany and Sweden.

ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing crmuinfo@afdb.org, b.kargougou@afdb.org, b.fall@afdb.org, and/or s.toure@afdb.org. You can learn more about the IRM and how to file a complaint at: <https://www.afdb.org/en/independent-review-mechanism/>
