Project Description

According to the Bank's website, this intervention aims at combining the effect of increased productivity, increased cropping intensity and expansion of production areas. This will help to increase the volumes of locally produced foods that will in turn improve household and national food security, build resilience to external shocks and safeguard livelihoods to the benefit of the economy. Using the Agro-Pocket platform, the SBS will promote the Bank's E-Agriculture flagship and using Risk Sharing Facilities such as Nigeria Incentive-Based Risk Sharing System for Agricultural Lending (NIRSAL), crowd-in investments in the sector. The Program consists of four (4) mutually reinforcing components namely: (i) Agriculture Sector Reforms; (ii) Improvement in Delivery of Farming Inputs and Quality Extension Services; (iii) Support to Wheat Production; and (iv) Enhancement of Private Sector Participation in Production of Agriculture Inputs.

The project objective is to build the resilience of small holder farmers through increased access to inputs and increase food and nutrition security.
