Investment Type(s)	Grant
Investment Amount (USD)	\$ 1.02 million
Grant Amount (USD)	\$ 1.02 million
Project Cost (USD)	\$ 2.25 million

Project Description

As stated by the AfDB, the rationale of the proposed Project is to leverage the experience and strong local presence of DAL Group to channel essential technical support and resilience building to smallholder farmers across multiple value chains, while catalysing private sector development in Sudan. The proposal aims to complement the Bank's recently approved USD 130 million regional investment program by DAL Group, focused on agricultural transformation, food security, and regional trade with marked development results.

The Project Development Objective (PDO) of the Technical Assistance and Capacity Building Project is two fold: (i) enhance DAL Group's capacity to produce financial reports in a hyper inflationary environment by supporting its transition to IAS 29 and other IFRS full compliance; and (ii) provide capacity building and technical support to strengthen human and institutional capacity. These objectives complement the Bank's existing strategic partnership with DAL Group and will further enhance its capacity to serve more of the local market in Sudan and expansion of its operations to neighbouring markets in Transition States and countries faced with fragility including South Sudan and Chad.

The Project will have an estimated 4,838 direct beneficiaries (51% women and 28% youth), about 270,711 indirect beneficiaries in multiple communities in the targeted localities, most of which are enclaved rural areas with limited economic activity. It will leverage on the Company's existing operations and infrastructure in the gum arabic, mango and meat value chains to deliver customized training and capacity building activities. The Project will help address key constraints faced by end beneficiaries, i.e., low skills and knowledge required for agricultural production (including climate smart production), lack of inputs needed for cultivation and access to markets.

Private Actor Relationship

Private Actors Description

As stated on the company's website, dating back to its beginnings in 1951 as an engineering dealership under the name Sayer & Colley, DAL's history is rich with success stories, out of which emerged Sudan's largest and most diversified privately-owned conglomerate that offers a wide range of products and services to businesses and consumers alike, its reach spanning the length and breadth of the country.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.afdb.org/en/disclosure-and-access-to-information/request-for-documents>. Under the AfDB's Disclosure and Access to Information policy, if you feel the Bank has omitted to publish information or your request for information is unreasonably denied, you can file an appeal at <https://www.afdb.org/en/disclosure-and-access-to-information/appeals-process>.

ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing crmuinto@afdb.org, b.kargougou@afdb.org, b.fall@afdb.org, and/or s.toure@afdb.org. You can learn more about the IRM and how to file a complaint at: <https://www.afdb.org/en/independent-review-mechanism/>
