Senegal - Water Valorisation for Value Chains Development Project  
(PROVALE-CV)

### Quick Facts

Countries	Senegal
Financial Institutions	African Development Bank (AFDB)
Status	Active
Bank Risk Rating	U
Voting Date	2019-07-17
Borrower	MINISTERE AGRICULTURE ET ELEVAGE
Sectors	Agriculture and Forestry
Investment Amount (USD)	\$ 34.85 million

### Project Description

The Water Valorization for Value Chain Development Project (PROVALE-CV) in Senegal is the first operation under the National Small-Scale Local Irrigation Development Programme (PNDIL) prepared with the Bank's support. PROVALE-CV will cover three agroecological areas: Niayes, the Groundnut Basin and Casamance, i.e. eight (8) administrative regions: Kaolack, Fatick, Kaffrine, Diourbel, Thies, Ziguinchor, Sedhiou and Kolda. The project aims to provide a concrete response to key development problems by valorization of water to develop climate-smart agriculture and promote value chains in promising sectors, particularly rice and market gardening. It will also help to open up production areas, reduce production costs through the use of new technologies, build the capacity of actors, create rural entrepreneurship opportunities for young people and protect the environment. Scheduled to be implemented over five years (November 2019-October 2024), PROVALE-CV has three components: (A) Modernise and develop agricultural infrastructure; (B) Developing value chains and youth entrepreneurship in agriculture; and (C) Project Management.

PROVALE-CV's sector objective is to contribute to robust, inclusive and sustainable economic growth, and to improve the quality of life for rural communities. The project specifically aims to sustainably increase agricultural production, employment and income in rural areas.

The beneficiaries of the project are the populations of the project area. In particular, it will benefit the various rural producers (farmers, stockbreeders, aquaculturists, craftsmen, etc.), who would thus have easier access to inputs and equipment and could more easily sell their products at lower costs. More specifically, the Project's interventions will focus on two target categories, particularly vulnerable in rural areas, women and rural youth.

## ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing [crmuinfo@afdb.org](mailto:crmuinfo@afdb.org), [b.kargougou@afdb.org](mailto:b.kargougou@afdb.org), [b.fall@afdb.org](mailto:b.fall@afdb.org), and/or [s.toure@afdb.org](mailto:s.toure@afdb.org). You can learn more about the IRM and how to file a complaint at <https://www.afdb.org/en/independent-review-mechanism/>.
