Tunisia - Project to develop and equip the Power Transmission Grid  
(PAERTE)

## Quick Facts

Countries	Tunisia
Financial Institutions	African Development Bank (AFDB)
Status	Approved
Bank Risk Rating	U
Voting Date	2019-10-09
Borrower	Government of Tunisia
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	\$ 126.51 million

### Project Description

According to bank documents, the Project to Develop and Equip the Power Transmission Grid (PAERTE) is an investment project aimed at strengthening Tunisia's electricity transmission grid. It is part of the electricity transmission programme of the XIIIth Plan 2016-2020. The project is consistent with Tunisia's energy transition plans. Indeed, the envisaged project infrastructure is aimed at integrating renewable energies into the national electricity grid. The PAERTE project is therefore one of STEG's initiatives to strengthen and extend its electricity transmission network before this deadline, with a view to absorbing and transmitting countrywide the large volume of intermittent renewable energy expected from these planned solar and wind power plants. Its completion will make it possible to increase the transit capacity of transmission lines and distribute electricity, thus integrating locally produced renewable energy; reduce technical loss rates; and improve the overall quality of service. The duration of the project physical execution is 48 months from 2020 to 2023 with a total cost estimated at EUR 290 million.

The project sector objective is to improve the performance of the national electricity transmission network in order to meet the country's growing demand for electricity and contribute to Tunisia's economic and social development. Its goal is to improve electricity supply quality throughout the country, particularly in the Bizerte, Ben Arous, Sousse, Sfax, and Gabes governorates. The project also aims to strengthen the electricity grid for the integration of renewable energies expected from solar and wind power plants that are being developed.

## ACCOUNTABILITY MECHANISM OF AfDB

The Independent Review Mechanism (IRM), which is administered by the Compliance Review and Mediation Unit (CRMU), is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an African Development Bank (AfDB)-financed project. If you submit a complaint to the IRM, it may assist you by either seeking to address your problems by facilitating a dispute resolution dialogue between you and those implementing the project and/or investigating whether the AfDB complied with its policies to prevent environmental and social harms. You can submit a complaint electronically by emailing [crmuintfo@afdb.org](mailto:crmuintfo@afdb.org), [b.kargougou@afdb.org](mailto:b.kargougou@afdb.org), [b.fall@afdb.org](mailto:b.fall@afdb.org), and/or [s.toure@afdb.org](mailto:s.toure@afdb.org). You can learn more about the IRM and how to file a complaint at <https://www.afdb.org/en/independent-review-mechanism/>
