Project Description

The overall objective of the project is to strengthen MDICI's advisory and monitoring capacities in the implementation of international cooperation projects and programmes by ensuring greater effectiveness and efficiency in the performance of its missions. The specific objectives of the project are: (i) establishment of the Delivery Unit, a structure attached to the Minister's office responsible for monitoring the implementation of projects and programmes financed within the framework of international cooperation; (ii) capacity building for MDICI managers and implementing agencies designated by the Delivery Unit.

The present intervention concerns technical assistance to support the establishment of a "Delivery Unit" within the Ministry of Investment Development and International Cooperation (MDICI). It aims to strengthen MDICI's advisory and monitoring capacities in the implementation of international cooperation projects and programmes.
