Solomon Islands Knowledge-Action-Sustainability for Resilient Villages
(SOLKAS) Project

Quick Facts

Countries	Solomon Islands
Financial Institutions	African Development Bank (AFDB)
Status	Approved
Bank Risk Rating	C
Voting Date	2023-07-13
Borrower	Government of Solomon Islands
Sectors	Education and Health, Law and Government
Investment Type(s)	Grant
Investment Amount (USD)	\$ 24.96 million
Project Cost (USD)	\$ 31.80 million

Project Description

According to the Bank's website, the SOLKAS project will strengthen the resilience of targeted communities and rural youth on the Solomon Islands against the onslaught of climate change impacts. It will enhance the adaptation capacities of the islands' government and schools to lay the foundation for a locally led adaptation effort through investments in critical community and school infrastructures. Building upon a community-based adaptation approach, the project will also advance understanding of the climate crisis on the island by delivering two highly innovative initiatives: a digital toolset for climate risk assessment and adaptation planning and a permanent Youth Climate Resilience Livelihoods incubator to accelerate green projects locally.

Investment Description

- African Development Bank (AFDB)
