### Project Description

According to AIIB documents, this project will finance the construction of a new two-lane 14.3 km long highway to provide a bypass to the Batumi port city (second largest city in Georgia). The road will be constructed on a new alignment, which passes through a number of mountainous settlements. Due to hilly nature of the terrain, this stretch of road requires construction of 5 tunnels and 19 bridges over rivers and valleys. Additionally, the controlled-access highway will have 4 grade separated interchanges to regulate traffic ingress/egress. The Project will also finance construction supervision and quality assurance services associated with the civil works including specialized structural and geotechnical works.

## ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides “an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB’s failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes.” Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html>.

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html>.
