Investment Type(s)	Loan
Investment Amount (USD)	$ 25.00 million
Project Cost (USD)	$ 30.00 million

Project Description

The stated aim of this project is to provide financing to improve energy reliability in Tashkent, and meet energy demand in the Sergeli district. Components include the construction of transmission lines and substations to supply energy to the extension of the metro line, to the residential area in Sergeli district, and to a new metallurgical plant currently under construction in Tashkent.

The project will be implemented by Uzbekenergo, a publicly owned company in charge of electricity generation, transmission and distribution in Uzbekistan.

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides “an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB’s failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes.” Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html.

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html.
