Investment Amount (USD)	\$ 100.00 million
Loan Amount (USD)	\$ 100.00 million
Project Cost (USD)	\$ 300.00 million

Project Description

According to bank documents, the Project consists of the construction of three additional geothermal power plant (GPP) units, including their associated production and reinjection wells, pipelines, electricity switchyards and transmission lines. The Efeler GPP units currently in operation are Gürmat-1 (Germencik, also known as Galip Hoca) and Gürmat-2 (Efe-1, Efe-2, Efe-3 and Efe-4), which jointly amount to 162.3 MW of combined installed capacity.
