Project Description

According to the Bank's website, the objective of the Bangladesh City Inclusive Sanitation Project is to increase access to urban sanitation services in an inclusive manner in selected municipalities of Bangladesh.

The Project will help address gaps in sanitation service coverage in municipalities particularly in low-income communities and informal settlements that conventional sewer systems cannot reach. The Project will support different sanitation services depending on the specific needs of municipalities, which may include septic tank maintenance services, construction of communal sanitation facilities and public toilets, decentralized sewer systems, and wastewater treatment facilities. The Project will also support institutional and capacity building of project implementing agencies, development of sustainable operational models, and awareness building in beneficiary communities.

The Project will include the following components: Component 1 - Sanitation and Hygiene Improvement; Component 2 - Institutional Strengthening and Capacity Building; and Component 3 - Project Management and Coordination.

Early Warning System Project Analysis

The Project is being proposed to be Category B, considering it will finance wastewater treatment plants in decentralized locations, associated facilities, and the operation of sanitation systems. During the appraisal, the Project's Categorization will be further reviewed and finalized following the feasibility studies; Environmental and Social (E&S) assessments, and site visits.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.aiib.org/en/contact/information-request/index.html>

ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB's failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes. Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html>

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html>
