## Project Description

According to the Bank's website, the objective of this project is to help the Government of Bangladesh (GoB) implement critical structural reforms to mainstream climate change adaptation and mitigation actions for a sustainable, resilient and inclusive growth.

The proposed Program will support the GoB undertake key policy reforms to mainstream climate adaptation, mitigation, and disaster resilience in critical sectors and unlock climate investments in Bangladesh. The Program supports implementation of the GoB-led national climate objectives as articulated in the National Adaptation Plan (NAP), 2023-2050 and the Nationally Determined Contributions 2021 update (NDC-U) by strengthening the intergovernmental policy and institutional framework, mobilizing climate finance, and mainstreaming gender equality and social inclusion (GESI). The Program will include three policy Reform Areas (RAs): (i) enabling environment for climate change actions; (ii) reinforcing climate change adaptation actions; and (iii) accelerating climate change mitigation actions to address some of the critical binding constraints.
