### Project Description

According to the AIIB, the project development objective is to support Kazakhstan's energy transition through the increase of wind power electricity generation.

The Project involves the development, maintenance, and operation of five wind power plants (WPPs) in the Republic of Kazakhstan. The Project includes installation of wind turbines with a total capacity of 220 MW, construction of 42 km 220 kV double-circuit overhead line, an electrical switchgear with two transformers, and expansion of the 220 kV substation.

The Project is implemented by China Power International Holding Ltd. (CPIH). CPIH is a subsidiary of the State Power Investment Corporation Limited, a Chinese state-owned power utility.

### ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB's failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes. Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html>

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html>
