Project Description

According to bank's website, the approved project aims to catalyze and scale sustainable infrastructure financing in AIIB regional members by mobilizing private capital and accelerating the development of the Green, Social and Sustainability (GSS) bond markets. The Project establishes a Green, Social and Sustainability bond investment platform, co-developed by AIIB and HSBC, to mobilize private capital and accelerate the development of GSS bond markets across AIIB regional members. Implemented through a Luxembourg-domiciled Reserved Alternative Investment Fund managed by HSBC, AIIB will invest up to USD500 million on a phased basis. The platform also facilitates private co-investment through separately managed accounts and other fund vehicles under a common investment framework, enhancing scalability and maximizing private capital mobilization.

ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides Òan opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIBÕs failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes.Ó Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html
