The Program Objective is to (i) enhance economic competitiveness through increased competition and an improved business environment for more private sector participation; (ii) build macroeconomic resilience to external shocks, through higher domestic revenue mobilization, debt reduction and improved fiscal reporting; and (iii) support the green transition by strengthening resilience to climate change, promoting low carbon development, scaling up renewable energy and increasing electricity and water and sanitation sectors efficiency. The Bank's support is focused on the third objective of the Program which is directly aligned with the eligibility criteria of the AIIB's policy on Climate Policy-based Financing.

ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB's failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes. Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html>

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html>
