Project Description

According to the AIIB, the objective of the project is to contribute to Antalya Airport's sustainable development and connectivity enhancement through the provision of a long-term project finance loan.

The proposed Project is a follow-on transaction to earlier approved two projects: Antalya Airport Expansion Project (P000639) and Antalya Airport Expansion Project (Upsize Facility) (P000847), which were part of two bridge facilities with the total signed amount of EUR2.3 billion and maturity of September 2025. AIIB's commitment amounted to EUR202.5 million, and the Project was jointly co-financed along with IFC (EUR212.5 million), European Bank for Reconstruction and Development (EBRD, EUR190 million), DEG (EUR50 million) and Turkish and international commercial banks. In previous approved projects, AIIB financed capital expenditures and financing costs incurred during the construction period with full recourse to Sponsors (TAV and Fraport).

In the proposed Project, AIIB will refinance previously provided bridge facilities by providing a non-recourse long-term project finance loan after completion of the construction Phase I, i.e., Q1 2025.

The previous bridge facility loan which is to be refinanced through the proposed long-term loan, financed three components of the Phase 1 expansion:

- Terminal Works: expansion of International Terminal 2, Domestic Terminal and associated carparks;
- Airside Works: additional apron space and taxiways, infrastructure works for new maintenance hangar area, fuel farm, cargo terminal; and
- Other Works: gates, landscaping, on-site solar farm and others.

ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB's failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes. Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html>

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html>
