

 Early Warning System

AIIB-001027

Uzbekistan: Bash 2 - 300MW Wind Power Plant

### Quick Facts

Countries	Uzbekistan
Specific Location	Gijduvan district of the Bukhara region
Financial Institutions	Asian Infrastructure Investment Bank (AIIB)
Status	Proposed
Bank Risk Rating	A
Voting Date	2025-12-01
Borrower	ACWA Power Company
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	\$ 120.00 million
Loan Amount (USD)	\$ 120.00 million
Project Cost (USD)	\$ 293.00 million

### Project Description

As stated by the AIIB, the project development objective is to support the expansion of renewable energy in Uzbekistan by financing the construction of a 300MW wind power plant.

The Project involves the development, construction, and operation of a wind power plant of 300MW capacity and Purchaser Electrical Facilities, including a 1.5 km of single circuit of 500kV Overhead Transmission Line (OHTL) connecting to existing Bash-Karakul OHTL, as well as 500kV switching station. The proposed site is located in the Gijduvan district of the Bukhara region in southern Uzbekistan. This project will be co-financed with ADB and other commercial banks.

A 25-year PPA was directly negotiated and signed in November 2023 with the National Electric Grid of Uzbekistan (NEGU) as the offtaker. The Investment Agreement (IA) with the Ministry of Investments, Industry and Trade on behalf of the Government of Uzbekistan (GoU) was also signed in November 2023.

### Early Warning System Project Analysis

According to the AIIB, the wind farm, located on government-owned land, will affect 12,626 hectares, with only a small portion utilized during construction and operation, allowing most land to remain accessible to leaseholders. The Project will necessitate the resettlement of assets for 23 herders, with compensation plans in place to address business interruptions and transitions. The land allocations for 1.5 km of OHTL tower footprint will be relatively minor with 30 m health protection zone (HPZ) from the power line. Substation will be located within the footprints of the wind farm. In addition, the predominantly male workforce on-site may increase risks of gender-based violence (GBV) or sexual harassment (SH), and inadequate facilities can further restrict women involvement. Women in nearby communities may be disproportionately impacted by land acquisition and livelihood changes. These risks will be addressed through specific measures in the Contractor's ESMPs and Resettlement Plan (RP). The Project will cascade gender measures to site-specific ESMPs during project implementation, including inclusive recruitment, GBV and SH sensitization, safe working conditions, and gender-sensitive consultations.

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.aiib.org/en/contact/information-request/index.html>

### ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB's failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes. Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html>

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html>
