Turkiye: Green Industrial Zone Development

## Quick Facts

<b>Countries</b>	Turkiye
<b>Financial Institutions</b>	Asian Infrastructure Investment Bank (AIIB)
<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	B
<b>Voting Date</b>	2027-01-01
<b>Borrower</b>	Government of Turkiye
<b>Sectors</b>	Construction, Energy, Industry and Trade, Infrastructure, Water and Sanitation
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 250.00 million
<b>Loan Amount (USD)</b>	\$ 250.00 million
<b>Project Cost (USD)</b>	\$ 500.00 million

## Project Description

According to the AIIB, the project development objective is to improve the environmental performance and competitiveness of Organized Industrial Zones in Turkiye through enhanced wastewater management, resource efficiency, and green and climate-resilient basic infrastructure.

Turkiye's OIZs face tightening environmental standards, water stress, and infrastructure gaps that constrain environmental compliance, expansion, and competitiveness. Shortcomings in wastewater treatment and basic supporting infrastructure limit operational efficiency and resilience. Addressing these constraints is essential to sustain industrial growth, safeguard competitiveness, and support Turkiye's green industrial transition.

The Project supports the Government of Turkiye to improve the environmental sustainability and operational competitiveness of OIZs through targeted investments in (i) wastewater treatment and water reclamation systems, and (ii) essential supporting green infrastructure. The latter includes, as appropriate, domestic and process water networks, sewage lines, stormwater drainage systems, electricity distribution networks, natural gas networks, and telecommunications infrastructure. Climate-resilient design and green features, such as energy-efficient measures, renewable energy integration, and nature-based solutions will be incorporated where appropriate. Investment will support the development, upgrading and expansion of necessary infrastructure.

The Project is structured as a parallel financing operation with the Islamic Development Bank (IsDB), under a coordinated nation-wide program led by the Ministry of Industry and Technology (MoIT). AIIB and IsDB will finance separate groups of OIZs under their respective policies and procedures.

The Project is organized along the following components:

- Component A: Investment in Wastewater and Water Reclamation Facilities (USD 190 million)
- Component B: Investment in Green and Climate-Resilient Basic Infrastructure (USD 55 million)
- Component C: Project Management (USD 5 million)

---

## Investment Description

- Asian Infrastructure Investment Bank (AIIB)

As stated by the AIIB, IsDB is expected to provide parallel financing of approximately USD250 million to support a different group of OIZs under the same government-led program.

## Contact Information

### AIIB Team Leader:

Mr. Nat Pinnoi - Senior Investment Officer

Email: [nat.pinnoi@aiib.org](mailto:nat.pinnoi@aiib.org)

### Borrower - Government of Turkiye:

Mr. Kerem Donmez - Director General, General Directorate of Foreign Economic Relations

Email: [kerem.donmez@hmb.gov.tr](mailto:kerem.donmez@hmb.gov.tr)

### Implementing Agency - Ministry of Industry and Technology:

Ms. Esmameric Mericli Tasan - Head of Department, International Programmes and Funding Directorate

Email: [esmameric.mericlitasan@sanayi.gov.tr](mailto:esmameric.mericlitasan@sanayi.gov.tr)

## ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.aiib.org/en/contact/information-request/index.html>

## ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB's failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes. Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html>

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html>
