Project Description

According to bank's website, the approved project proposes a total AIIB commitment equal to the lower of (i) USD80 million and (ii) 10% of the final fund size to Ninety One Emerging Markets Infrastructure Debt Fund 1 (“EMID 1 Fund”, or the “Fund”), subject to AIIB not being the largest investor. The proposed AIIB allocation will comprise: (i) USD75 million in a bond issued by a Luxembourg securitization vehicle that will hold the Class A preference shares issued by the EMID 1 Fund, and (ii) USD5 million in Class B ordinary shares issued by the EMID 1 Fund, matching the commitment of the General Partner in the Class B Shares. The EMID 1 Fund targets USD1 billion in commitments and aims to build a diversified portfolio of private sector infrastructure loans. AIIB’s investment will be used to finance investments in AIIB regional members, in line with AIIB’s mandate, using a use of proceeds approach. The Fund’s target sectors include renewable energy, power transmission and distribution, transportation, telecommunications, digital infrastructure, and water and sanitation – sectors that support infrastructure resilience and economic development in emerging markets.
