Project Description

According to bank's website, the proposed project aims to strengthen the West Java Academic Health System through the development of RS UNPAD’s healthcare service delivery, medical education, and research capacity, along with the development of a center of excellence for tuberculosis. The Project Investment will be carried out with the below Project Components:

Component A – Civil Works: A range of infrastructure investments will support the academic system development program of RS UNPAD. Key buildings under AIIB’s financing include an outpatient and medical education building, inpatient building, infectious disease and immunology research center specializing in Tuberculosis and an advanced therapy and diagnostics center of excellence. The structures form a part of the overall development plan, with other buildings to be developed at a later stage with other financing sources.

Component B – Procurement of equipment: The proposed upgrade of RS UNPAD includes advanced medical and research equipment to help transform it into a tertiary-level referral center with integrated clinical, research, and education functions. The package covers major clinical specialties, advanced diagnostics and imaging, laboratory and infectious disease testing, surgical and interventional systems, research platforms for Tuberculosis and vaccine development, and hospital systems for inpatient care and operations.

Component C – Human Capital Development: The government of Indonesia will finance the entire Component C, and it consists of multiple subcomponents. The service subcomponent strengthens academic and health services at the primary, referral, and specialized levels. It links teaching hospitals, primary care, laboratories, clinical trial centers, and partner hospitals to improve service quality and support innovation.

Component D – Project Implementation Support: AIIB financing will support the engagement of procurement and technical consultants, including construction supervision and management consultants, medical and laboratory equipment consultants, and specialists such as a civil engineering expert, medical service management expert, and financial auditing consultant. It will also finance Project management support, including relevant consultants to strengthen operational governance, helping ensure an effective transition from construction to operations.

ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides Òan opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIBÕs failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes.Ó Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html
