Project Description

According to the AIIB, the Project's Objective is to support the sustainable expansion of Qingyang's Computing Industrial Park through integrated infrastructure improvements that enhance the Park's low carbon performance, resource use efficiency, climate resilience, and service capacity.

The Project comprises three components: Component 1 (Core Green Enabling Infrastructure), Component 2 (Low-Carbon and Resource-Use Efficiency Infrastructure), and Component 3 (Institutional Capacity Building and Implementation Support).

- **Component 1: Core Green Enabling Infrastructure.**

This component will finance the core enabling infrastructure required to support the sustainable expansion of the Qingyang Computing Industrial Park. The investments are designed to increase the Park's service capacity, operational readiness, connectivity, and supporting infrastructure, enabling it to accommodate the continued growth of computing capacity under the Eastern-Data-Western-Computing (EDWC) initiative. The component focuses on public and shared infrastructure that benefits the Park as a whole and provides the essential conditions for future private investment.

- **Component 2: Low-Carbon and Resource-Use Efficiency Infrastructure.**

This component will finance the park-level systems that improve resource-use efficiency and support the Qingyang Computing Industrial Park's transition towards a green and low-carbon computing hub. The investments are designed to promote the circular use of water, energy, and computing equipment, strengthen carbon management, and enhance the environmental sustainability and operational efficiency of the Park.

- **Component 3: Institutional Capacity Building and Implementation Support.**

This component will support effective project delivery and long-term sustainability.

ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB's failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes. Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html>

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/submission/index.html>
