| <b>Project Cost (USD)</b>     | \$ 14.00 million                            |

### **Project Description**

According to the CDB, this project will expand and upgrade Grenada's water distribution and wastewater networks while improving the sewerage infrastructure in the capital city, St. George's. It will enhance the quality and quantity of water resources available to residential and economic sectors. The project will increase the efficiency and climate resilience of the water sector in Grenada and improve the availability of potable water supplies for St. George's and tourism developments in the south of the island.

### Investment Description

- Caribbean Development Bank (CDB)
