Project Description

According to the CDB, the project will improve and sustain the integrated solid waste management in Grenada.

According to the Project Summary:

The outcome of the Project will be improved and sustained Integrated Solid Waste Management (ISWM). The proposed project includes the following components:

- (a) Land: Approximately 3,700 m² of land for civil works;
- (b) Civil Works: Works comprising cell development at Perseverance Landfill (PL); Closure of the existing “Old Dumpsite” at Perseverance; Closure of original PL cells; and new Sanitary Facilities accessible by waste pickers;
- (c) Equipment: The supply of equipment and vehicles to effect and support GSWMA operations;
- (d) Institutional Strengthening and Capacity Building: Consultancy services for Revision of the National Waste Management Strategy (NWMS); GSWMA Strengthening and Capacity Building; and a Commercial Composting Study;
- (e) Public Awareness and Education Programme (PAEP): Services for the development and implementation of stakeholder awareness and education activities;
- (f) Engineering Services: Consulting services for preparation of final designs and tender documents and construction supervision for the Civil Works;
- (g) Monitoring and Evaluation (M&E): Consultancy services for the development and implementation of an M&E programme; and
- (h) Project Management: Consultancy services for the function of a Project Coordinator (PC) and the provision of counterpart staff, facilities and services to manage project implementation.
