<b>Sectors</b>	Industry and Trade, Infrastructure, Transport
<b>Investment Type(s)</b>	Loan
<b>Loan Amount (USD)</b>	\$ 110.07 million
<b>Project Cost (USD)</b>	\$ 185.34 million

---

## Project Description

According to the CDB, this project will construct new cargo port facilities and associated access roads on reclaimed land near the existing Kingstown Harbour, providing essential climate resilient infrastructure for economic activity on the island. A new marine sewer line will protect and improve the sustainability of the surrounding marine environment.

The project will increase the efficiency of port services, and facilitate economic growth, while protecting the marine environment and providing livelihood support for project-affected persons.

---

## Investment Description

- Caribbean Development Bank (CDB)

The UK CIF Resources will finance the project with an amount of USD 32,482,000, and the Government of St. Vincent and the Grenadines with an amount of USD 104.8 million.

Accordingly, the total project cost should be about USD 250.8 million.

*The data reported on this tab is approximate, due to inconsistency of information between the project disclosure and the project documents.*
