| Project Cost (USD) | \$ 16.64 million |

Project Description

OPIC will provide a loan to support KMRI LLC, a U.S. small business, to develop, construct and operate a 5.9 MW run-of-river hydro power plant in western Uganda. Uganda has one of the lowest electrification rates in Africa with only 18% of the population having access to power. The project will support the Government of Uganda's goal to increase electricity access through the construction of renewable energy projects in rural areas.

Investment Description

- US International Development Finance Corporation (DFC)
