Investment Type(s)	Loan
Investment Amount (USD)	$ 20.00 million
Loan Amount (USD)	$ 20.00 million
Project Cost (USD)	$ 55.50 million

Project Description

According to the bank document, " In response to the need for a commercially-sustainable solution to the global water and sanitation challenge, WaterEquity will aggregate and deploy $50 million in social investment capital to microfinance institutions (“MFIs”) to scale up their water and sanitation (“WSS”) lending portfolios.

Most of the target MFIs in the Fund’s pipeline launched their WSS portfolios with technical assistance provided by Water.org. WaterEquity will also lend to small and medium enterprises that provide affordable water and sanitation products and services to low-income families, i.e. those that typically earn less than $10 per day."

Investment Description

- US International Development Finance Corporation (DFC)

Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.
