The Project involves loans, for the purchase of motorcycles and other vehicles, to individuals and micro-entrepreneurs in Peru.

---

## Early Warning System Project Analysis

This Project is expected to have a positive developmental impact by expanding the availability of credit to micro-, small and medium-size enterprises in Peru. Most of the financed vehicles will serve as the primary income-generating assets for micro and small enterprises, typically taxi drivers. According to The World Bank, only eight percent of individuals in Peru borrowed from a financial institution in 2017 to start, operate, or expand a business.
