Project Description

The proceeds of the loan will be used to expand Banco Industrial, S.A.'s portfolio of loans to borrowers in Guatemala that are women-led and owned businesses and/or that are small-and-medium enterprises.

This Project is expected to have a highly developmental impact in Guatemala. The Bank will use the proceeds from a DPR securitization to issue loans to small, medium and growing businesses throughout Guatemala, with a particular focus on women owned or operated businesses. SMEs make up a large and important part of Guatemala's economy. In 2015, the Guatemala Ministry of Economy estimated that SME and micro-enterprises comprised 99 percent of all companies and produced 35 percent of total revenue generated by all companies, with larger companies contributing the balance. This significant middle of the economy remains unsupported by the finance sector, and as a result is unable to fully support further growth. According to the SME Finance Forum, SMEs and microenterprises in Guatemala face a \$14 billion financing gap, with women owned or operated SMEs and microenterprises facing a financing gap of over \$1.2 billion. Furthermore, there are significant development challenges within secondary and tertiary cities, and rural parts of the country, as indicated as Guatemala's global ranking as 19th most economically unequal, according to World Bank Gini coefficient analysis. The Project will help meet these gaps as it will focus lending towards SMEs, women owned or operated businesses, and rural enterprises.
