## Project Description

The proceeds of the loan will be used to support the expansion of the small, and medium enterprise (“SME”) loan portfolio of Itaú with (i) at least 35% of loan proceeds to be dedicated to the economically disadvantaged regions in the north and northeastern states, and (ii) 30% of loan proceeds to be dedicated to 2X SMEs (the “Project”). The Project will provide essential COVID relief to most economically vulnerable northern regions and women entrepreneurs.

### DEVELOPMENTAL OBJECTIVES

This Project is expected to have a developmental impact on Brazil through the issuance of loans to SME borrowers in the host country. This will include a portion of funding dedicated to women-owned and women-led clients, as well as a portion allotted for the less developed states of the country in the north and northeast regions. According to the SME Finance Forum, the SME financing gap in Brazil is an estimated \$437 billion. Additionally, though the country is classified as an upper-middle-income country by the World Bank, Brazil struggles with income inequality. The country’s GINI coefficient at 53.9 is of one the highest in the world, and the income disparity between the south and north is pronounced. As the largest financial institution in Brazil, the Bank has the market penetration to issue credit to clients that otherwise have limited access to financing.
