## Project Description

This Project is expected to have a highly developmental impact by expanding the availability of credit to microenterprises owned by women in low-income communities throughout central and southern Mexico. With a target of serving low-income women, this Project aligns with the Mexican government's 2016 National Policy for Financial Inclusion. Further, the Project addresses Mexico's \$163.9 billion MSME credit gap and expands financing options to the MSME sector which customarily receives just 11% of commercial loans.
