## Project Description

According to bank provided information, the project involves the provision of loan guaranty support for SMEs operating in the Palestinian territories. The loans under the

Project will be made by downstream financial institutions (each, a “Borrower”) and guaranteed pursuant to guaranty facility agreements (a “GFA”) among DFC, MEII, and each Borrower.

MEII will also provide technical assistance and training (“TA”) to loan officers and mid-level management of the Borrower, enabling those institutions to better assess the creditworthiness of prospective SME borrowers and to structure loans that effectively meet the working capital or longer-term financing needs of those businesses. To address “demand”-side weaknesses, TA efforts will help SMEs on the threshold of bankability demonstrate their creditworthiness to commercial lenders. The goals of the Project, which will replace a highly successful but expiring DFC loan guaranty facility, are to increase the number and enhance the quality of loans from private financial institutions operating in the Palestinian territories to local SMEs (the “Downstream Borrowers”), and to improve economic conditions in the Palestinian territories.
