### Early Warning System Project Analysis

Applicable Standards: DFC's environmental and social due diligence indicates that the Project will have impacts that must be managed in a manner consistent with the following

Performance Standards:

PS1: Social and Environmental Assessment and Management Systems;

PS2: Labor and Working Conditions;

PS3: Pollution Prevention and Abatement; and

PS4: Community Health, Safety and Security

In addition to the Performance Standards listed above the IFC April 30, 2007 Environmental, Health, and Safety General Guidelines apply to this project.

A desk-review of available project information indicates that the Project does not involve any land acquisition, impact biodiversity, indigenous peoples or cultural heritage therefore, P.S. 5 through 8 are not applicable to this project.

Environmental and Social Risks: The Insured intends to implement an Environmental Management System for each of its projects. It also provides a hot line number for the transmission of any complaints concerning the project. All workers are trained before leaving the country, especially when traveling to countries with security risks.

Environmental measures are in place for mitigating potential impacts that may result from the servicing and maintenance of vehicles.

Modifications to buildings will entail minor renovations and are not expected to have significant environmental and social impact.

---

## Contact Information

### ACCESS TO INFORMATION

Unlike many other development finance institutions, DFC does not currently have an access to information policy.

Under the United States Freedom of Information Act (FOIA), DFC is obliged to respond to reasonably formulated requests for Agency records. However, DFC may apply exemptions from release to certain types of information and may charge fees in responding to requests. DFC has a designated FOIA officer who is trained in how to respond to requests and implement the law. You can learn more about filing a FOIA request at: <https://www.dfc.gov/foia>

### ACCOUNTABILITY MECHANISM OF THE UNITED STATES INTERNATIONAL DEVELOPMENT FINANCE CORPORATION (DFC)

The Office of Accountability is an independent office that addresses complaints about environmental or social issues related to DFC-supported projects. The office provides communities an opportunity to have concerns independently reviewed and addressed. If you submit a complaint to the Office of Accountability, it may assist you by either seeking to address your problems by facilitating a problem solving dialogue between you and those implementing the project and/or investigating whether the DFC complied with its policies to prevent environmental, social, human rights, and labor harms.

You can find more information about the Office of Accountability at: <https://www.dfc.gov/who-we-are/office-accountability>
