Project Description

According to the project documents, This Project is expected to have a highly developmental impact in India Objectives through the support of a financial institution during a difficult economic period. The outbreak and ensuing pandemic of COVID-19 has had a significant impact on India. Most recent IMF estimates show a recession and 10.3 percent contraction in the economy in 2020. The pandemic has not only led to an economic slowdown in India, but also created uncertainty regarding the fundraising environment for financial institutions. The Project will provide vital Tier 2 capital to help increase liquidity for a bank to weather this financial and economic crisis and continue its positive developmental activities. In addition, this transaction will be made to a Borrower focused on the employment of women, as indicated by the goal of having 40 percent of its workforce female by 2025. With a more secure asset base as a result of this loan, the Borrower is expected to be able to continue to support its positive developmental activities.
