Project Description

As stated by the DFC, DFC will provide a local currency loan guarantee to a local financial institution in Kenya, which will in turn extend a loan denominated in Kenyan Shillings to Ed Partners Africa Limited to expand their portfolio of loans to affordable private schools in Kenya.

The demand for education in Kenya is increasing rapidly, with 65% of Kenya's population under 25. This demand for quality, affordable education outstrips the Government of Kenya's ability to provide it through the public educational system. Affordable private schools offer an alternative, but these schools are capital constrained and traditional banking institutions do not service this customer segment. The DFC-backed investment guaranty will allow EPA to grow its book of loans substantially over the next several years.

Early Warning System Project Analysis

Projects that will fund loans that may include construction at small educational facilities are screened as Category B projects under DFC's environmental and social policies.

- US International Development Finance Corporation (DFC)
