## Project Description

As stated by the DFC, the Project is expected to have a positive development impact in India by constructing four modern grain silo's in Malout, Punjab; Alwar, Rajasthan; Harduaganj, Uttar Pradesh; and Murshidabad, West Bengal.

Food security remains a significant priority for India. To address this need, the Indian government's Food Corporation of India (FCI), which manages the largest public food distribution network in the world. FCI has historically relied on traditional warehouses where grains are stored in sacks or in open covered and plinth facilities that suffer from high rates of spoilage. The Project's modern siloes, developed under concession for FCI, will significantly reduce spoilage, increasing the amount of food available to lower-income Indians through FCI's distribution scheme. This will reduced post-harvest loss & will also reduce water use and GHG emissions. Finally, the modern silos will support farmers by providing a more efficient and lower-cost procurement system than that associated with current FCI storage facilities.

The borrowers are Leap India Food & Logistics Ltd.'s subsidiaries, namely:

- Leap Agri Logistics (Malout) Private Limited;
- Leap Agri Logistics (Alwar) Private Limited;
- Leap Agri Logistics (Harduaganj) Private Limited; and
- Leap Agri Logistics (Murshidabad) Private Limited.

## **ACCESS TO INFORMATION**

Unlike many other development finance institutions, DFC does not currently have an access to information policy.

Under the United States Freedom of Information Act (FOIA), DFC is obliged to respond to reasonably formulated requests for Agency records. However, DFC may apply exemptions from release to certain types of information and may charge fees in responding to requests. DFC has a designated FOIA officer who is trained in how to respond to requests and implement the law. You can learn more about filing a FOIA request at: <https://www.dfc.gov/foia>

## **ACCOUNTABILITY MECHANISM OF THE UNITED STATES INTERNATIONAL DEVELOPMENT FINANCE CORPORATION (DFC)**

The Office of Accountability is an independent office that addresses complaints about environmental or social issues related to DFC-supported projects. The office provides communities an opportunity to have concerns independently reviewed and addressed. If you submit a complaint to the Office of Accountability, it may assist you by either seeking to address your problems by facilitating a problem solving dialogue between you and those implementing the project and/or investigating whether the DFC complied with its policies to prevent environmental, social, human rights, and labor harms.

You can find more information about the Office of Accountability at: <https://www.dfc.gov/who-we-are/office-accountability>
