Project Description

According to the DFC, the project consists of a \$50 million senior loan to National Bank of Iraq for on-lending to small and medium-sized enterprises

The Project is expected to have a positive developmental impact in Iraq by increasing lending to small and medium sized enterprises (SMEs). SMEs in Iraq account for over 90% of private sector employment, yet they face a finance gap of \$37.93 billion. Barriers to SME financing include difficult registration and collateral requirements, which the Project will help address through innovative products streamlining the loan process and reducing the need for physical collateral. DFC's support is expected to expand access to SME financing in Iraq with an emphasis on first-time borrowers.
